

Leadonil^{500 SC}

DESCRIPTION:

Broad spectrum agricultural fungicide effective against a wide range of diseases in field, fruit, and vegetable crops.

CONTENT:

Chlorothalonil 50%

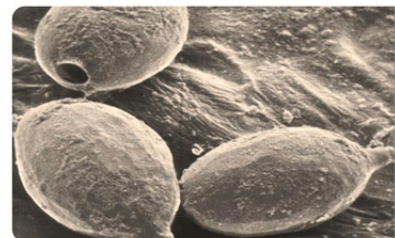

FEATURES & BENEFITS:

- Provides protection to prevent the spread of diseases such as downy mildew, purple blotch, rust, etc.
- Has a long lasting effect on crops.
- Given its SC formulation, it does not clog the nozzles of sprayers.

TIMING OF APPLICATION:

Spray when disease threatens and repeat at 7 to 14 day intervals.

TARGET DISEASES:

Fungal spores before application of Leadonil 500 SC

Spores damaged - after application of Leadonil 500 SC

FUNGICIDE

DOSAGE RATE: 60-85 mL / 16L
